

ABSOLUTE PLASTICS LTD.
RETHINK THE FUTURE

GO GREEN
with recycling.....

**Business
Profile**

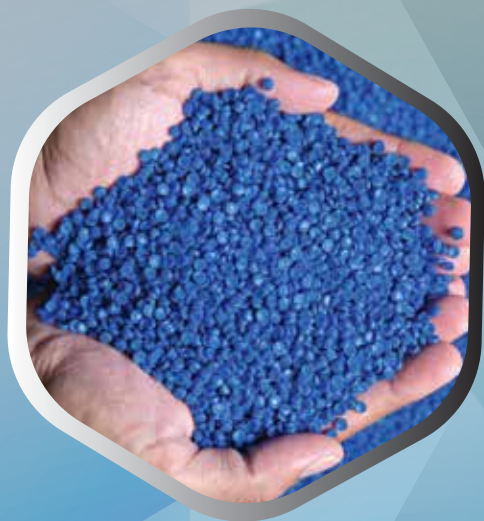

*Save energy
for Recycling*

Company Background

Absolute Plastics Ltd is an innovative and eco-friendly plastic recycling company that offers superior recycled plastic raw materials to the manufacturing industry nationwide at an affordable price. **Absolute Plastics Ltd** is a sister concern of **ALBATROSS BD**, which has been successfully operating since 2008. **ALBATROSS BD** is primarily a trading company which mainly offers superior PVC and Plastic raw materials to manufacturers in Bangladesh. **ALBATROSS BD** has earned a greater level of trust from its stakeholders, which eventually makes **ALBATROSS BD** a reputed and one of the most successful PVC trading companies in the Bangladesh market.

Due to the immense potential and abundance of resources, **ALBATROSS BD** expands its business wing to the plastic recycling market and **Absolute Plastics Ltd** emerged in 2022. **Absolute Plastics Ltd** is a manufacturing company dedicated to converting waste plastic materials into commercially viable products, utilizing environmentally friendly recycling and manufacturing methods.

Absolute Plastics Ltd works on the basis of this idea to generate activity centred on a circular economy, which suggests boosting the use of resources that come from elements at the end of their useful life and reinstating their presence in the production chain. This not only generates wealth but also contributes to sustaining the natural environment. Currently, **Absolute Plastics Ltd** offers a wide range of recycled plastic products including PP-HP, PP-CP, HDPE, and LLDPE in all colors depending on customers' demand. Moreover, **Absolute Plastics Ltd** also offers customization facilities to their most valued customers.

What We Do

ABSOLUTE PLASTICS LTD is a certified Plastic Recycling Granules manufacturing company in Bangladesh. **ABSOLUTE PLASTICS LTD** collects plastic waste; converts high-quality manufacturing materials; and co-creates products with plastic manufacturers nationwide. There are more than 150 centres across Bangladesh from where we collect plastic waste and transport it to our well-equipped recycling facility centre at Karanigonj BSCIC Industrial Area, Ruhitpur, Keranigonj, Dhaka, Bangladesh. Our plant is well-equipped with cutting-edge technology and converts plastic waste into a new life.

We transform plastic scraps that would otherwise become pollutants and turn them into recycled High-Density Polyethylene (HDPE) & Polypropylene (PP) resin. Our recycled plastic granules capabilities help reduce material costs, recover value and improve product quality so that our customers can remain focused on running their businesses. Our plastic recycling solutions help our customers' bottom lines as a result of:

-  Offering high-quality recycled materials of high-performance plastics at significant savings over virgin.
-  Helping them recycle the high-value manufacturing scrap.
-  Recovering valuable inventory of off-spec or contaminated resin.

Executive Summary:

Absolute Plastics Ltd was established in 2022 and situated at Karanigonj BSCIC Industrial Area, Ruhitpur, Keranigonj, Dhaka. Bangladesh on its own land. The primary aim of the business will be to recycle and reuse plastic waste materials. Our recycling company will focus to recycle plastic wastes like plastic containers, bottles, polythene, polybag, plastic boxes, packets, sheets, and the like, and turn them into useful products. The business will offer a wide range of services and products for the ease of its customers.

The global Recycled Plastic Granules market is projected to reach \$80 million by 2028 from an estimated \$30 million in 2022, at an Impressive CAGR during 2023 and 2028. With this immense potential, **ABSOLUTE PLASTICS LIMITED** aims to be one of the largest, and most innovative Recycle Plastic granules manufacturers in Bangladesh. With the initial yearly target of 3600 M. Ton production, **ABSOLUTE PLASTICS LIMITED** will be gradually increasing its production capacity to 50,000 M. ton by the year 2028. We manufacture the best quality **PP-HP, PP-CP, HDPE**, and **LLDPE** (Color-Natural, Red, Blue, Green, Black or as per customer's requirements).

We want to create outstanding value for our customers, employees, stakeholders and the global community by leveraging our expertise in plastic waste and environmental compliance. Apart from our traditional recycling management solutions, for the rapidly growing plastic sector, we can offer total asset management of used plastic starting from collection to recycling. We value our customers and with uncompromised dedication & continuous effort, we deliver all the support to satisfaction.

Our Quality policies

Absolute Plastics Ltd has implemented a Secure, Quality and an Environmental Management System and has been certified according to an Independent Certification Body and thus, offers key principles for the protection of the environment and demonstrates an exemplary environmental performance.

Why Choose Us:

Absolute Plastics Ltd is in business to facilitate companies, industries, government and consumers to recycle all there for Plastics Furniture, Plastics Houseware Products, electronic waste, battery waste Plastics Part, Plastics waste recycling process.

Our Vision

To encourage and motivate Bangladesh to attain the highest plastic waste reduction, recycling and reuse goals in the nation through innovative, agile and efficient solutions that improve the nation's economic and environmental vitality. **ABSOLUTE PLASTICS LIMITED** is profoundly passionate about changing the wider perception of plastic as waste through recycling and reusing. We transform plastic waste into valuable manufacturing material that eventually elevates the economic vitality and environmental sustainability of the nation.

Our Mission Statement

Our mission is to transform plastic waste into valuable manufacturing resources, promoting equitable, sustainable, environmentally sound and cost-effective practices through an integrated system of waste reduction, reuse, recycling, innovative technology, customer service and education. Moreover, **ABSOLUTE PLASTICS LIMITED** maintains steady but profitable growth without compromising quality, our core principles, ethics and local and internal law by offering superior value for money to our clients and society.

Our Core Values

- **We believe in waste to best conversion:** Commonly plastic waste dump on open land and water across Bangladesh. The uneconomical and environmentally hazardous combustion of this waste often poses serious challenges to public and environmental health. Therefore, we believe in reusing this waste and transforming this into a valuable manufacturing product.
- **We believe in Customer satisfaction and growth:** We profoundly believe that our customer is the heart of our system and pump blood into our business.
- **We believe in integrity:** We conduct our business activities in an open, transparent manner and engage stakeholders and the public in the development of policies and regulations. We act in an ethical, honest, and professional manner.
- **We believe in supportive, cooperative and innovative work culture:** An effective work culture plays a crucial role in an organization's growth and development. Mutual cooperation, proper integration, innovative human resource and support among the employees in the organization are a must for nurturing the evolution of the required work culture. Moreover, the promotion of innovation leads to the evolution of new ideas. Innovation is also an integral part of our business ecosystem at Absolute Plastics Limited.
- **We believe in a clean and green environment:** Mother earth provides us with everything which is required for our survival and living a decent life on this planet. Therefore, it is our utmost duty and obligation to keep this mother earth

Management Team

Management & Organization:

ABSOLUTE PLASTICS LTD Management Operate as per below Organogram:

Business Details :

Absolute Plastics Ltd was established with the aim of maximizing profits in the Plastics Furniture, Plastics Houseware Products, electronic waste, battery waste Plastics Part, Plastics waste recycling industry. With our competent quality assurance team, we will ensure that every recycled material or products that leaves our recycling plant meet and even surpass our customer's expectations and meet with best practices in the industry. We will work hard to ensure that the products and brand of Absolute Plastics Ltd is not just accepted in BD but also in other countries in the world. Our products and recycled facilities are listed below:

Plastics Recycling Process

Waste Plastics

Recycle Chips

Recycling Polypropylene(PP)

Recycling Collection sourcing Facilities :

- Operating plant facilities for separating, sorting for recycling Plastics-waste (Plastics Furniture, Plastics Houseware Products, electronic waste, battery waste Plastics Part, Plastics waste) as per Color and Plastic Grade.
- Collection facilities for Plastics Furniture, Plastics Houseware Products, electronic waste, battery waste Plastics Part, Plastics waste all over BD.

Materials or waste Product We Recycle:

- All Kind of Plastics (PP, HDPE) Furniture waste product
- All Kind of Plastics (PP, HDPE, PS, ABS, HIPS) Houseware waste product.
- All Kind of HDPE PIPE waste product.
- One time Plastics Products.
- All Kind of waste Poly and Packaging Plastics. Fruits crates, Industrials Palates, Industrials Buckets and all kinds of industrials plastics waste.

Products Details :

Our products Details are listed below:

Our Target Market:

- Plastics Product Manufacturing Company
- Electronics manufacturing companies
- Electricals manufacturing companies
- Automobile manufacturing companies
- Construction companies
- Manufacturers and Distributors
- Corporates eg. banking, finance & insurance
- Retailers, brands & distributors
- Government agencies & public authorities
- Manufacturers, OEMs - small, medium & large
- Consulting firms & call centres
- ICT solutions & storage providers
- Film, audio, print & media production

Why to Recycle

We thrive on the 5R cycle and will go the extra mile to assist in keeping our environment clean.

Sustainable Agreement:

-  **Absolute Plastics Ltd** will collect goods for refurbishing, recycling and destruction, nationwide.
-  Collections all over Bangladesh will be provided free of charge to client.
-  We guarantee that all goods collected are processed and recycled according to national legislation and that **Absolute Plastics Ltd** is accredited by ISO.
-  **Absolute Plastics Ltd** will do a Plastic waste audit of the items collected if required from the client on site and serial numbers of items will be recorded.
-  We will be bound by our confidentiality obligation, towards our client's needs.
-  **Absolute Plastics Ltd** provides customer centric technology recycling solutions and services through the best environment friendly practices.

Commitment to the Environment:

-  Reduce environmental impact and energy consumption through our refurbished product and recycling services. Reduce the environmental impact of the energy and resources we use.
-  Appropriately dispose of environmental pollutants generated from our business activities. Promote environmental education and our environmental policies to improve environmental awareness among our employees as well as outside of the company.
-  Comply with all laws, regulations, agreements entered by our company, and any other agreements related to the environment.
-  Business greatly impact the lifestyle of communities in which they operate. If businesses work along with their internal and external stakeholders towards creating awareness and promoting positive impacts of plastic reuse and recycling, they are bound to bring about a sea change towards environment conservation.
-  Plastic manufacturing uses a lot of energy and resources, water, and petroleum. Reusing the plastic instead of manufacturing from virgin materials every time helps reduce the strain on fossil fuel such as coal, natural gas, petroleum, and more. Recycling plastic ultimately helps in saving these natural resources, which again helps decrease the level of carbon dioxide.
-  Landfill sites are fast diminishing. The growing human population means that habitable land is becoming more and more valuable with each passing day. Proper waste management through reusing and recycling of plastics can save significant amount of landfill space. 7.4 cubic yards of landfill space can be saved by recycling 1 ton of plastic.
